Subject: UPDATE! Review of San Jacinto River Waste Pits Superfund Site cleanup documents
Date: 02/11/2013 01:22 PM

Dear San Jacinto River/Houston Ship Channel Community Members and Stakeholders-

The Galveston Bay Foundation (GBF) has updated the [San Jacinto River Waste Pits Superfund Site webpage](#) by adding the presentation materials from the January 24th GBF/HARC Public Info Meeting. We are also working on a summary of the full meeting as well as FAQs asked that evening. We hope to have those two items up on the webpage this week.

We have also added contact information for agency personnel from Texas Department of State Health Services and Texas Commission on Environmental Quality.

I hope you find this information helpful. I will send another update when the new items are added and will notify you when I get info on the next EPA public meeting.

Please share this e-mail with your family, friends, and other members of the community and encourage them to contact me to be added to the mailing list. On the webpage, we have listed expert contacts for you, but please feel free to contact me if you have any questions.

Sincerely-

Scott A. Jones
